

OBC Seminar Program 2011/2012

All seminars held on Mondays at 1615 in LT3 unless stated otherwise.
Please note, this program will be updated throughout the academic year.

Wednesday 26 October 2011, LT2, 1600

Prof. Christian Hertweck (Hans Knoll Institute, Jena)

"Exploiting Cryptic Biosynthetic Pathways in Microorganisms"

19 December 2011 - POSTPONED until 27 Feb. 2012

Prof. Adam Nelson (University of Leeds)

"Exploiting Biological and Chemical Diversity: Synthetic Approaches to Bioactive Small Molecules"

Thursday 5 January 2012, LT1, 1300-1800

RSC South West Regional Symposium

RSC Synthetic Organic Chemistry Award Lecture - Prof. Tim Donohoe (University of Oxford), *"New catalytic reactions designed for the efficient synthesis of natural products"*

6 February 2012

Prof. Jun-ichi Yoshida (Kyoto University)

"Flash Chemistry: High-Resolution Time Control in Chemical Synthesis Using Flow Microreactors"

13 February 2012

Prof. Paul Murphy (National University of Ireland, Galway)

27 February 2012

Prof. Adam Nelson (University of Leeds)

"Exploiting Biological and Chemical Diversity: Synthetic Approaches to Bioactive Small Molecules"

Friday 9 March 2012

Prof. Scott Miller (Yale)

Wednesday 14 March 2012, LT2, 1400-1800

Wilson Baker Symposium

Prof. Jim Thomas (University of Manchester)

26 March 2012

Prof. Sabine Flitsch (University of Manchester)

Wednesday 28 March 2012, Coffee Lounge, 1400-1900

Syngenta Poster competition (2nd year OBC post-graduates)

Tuesday 17 April 2012, Victoria Rooms, 1000-1730

Bristol Synthesis Meeting

Friday 18 May 2012

Prof. Michel Gagné (UNC, Chapel Hill)

11 June 2012

Prof. Richard Taylor (University of York)
